ANNEXTURE -III

Best Practice

BEST PRACTICE – I

Title: Upliftment of Tribal Students.

1. Goal :

Satyaniketan is a group of workers committed to the cause of the downtrodden in general and the tribal area of the Akole Tahsil in Ahmednagar District in particular on their habitat. The work from its very beginning had an educational thrust, initially, it was the voluntary primary school run in villages and network of 3 boys hostels and a hostel for girls now a net of 2 middle schools and a junior college, a senior college an Ashram School and 22 day care centers for kids of the pre-school age group. The institution believes in working not for but with the people. Naturally the main thrust is education. During the academic year 1993-94 under report in response to a pressing demand of the student community and their guardians and member of public, a senior college was opened at Rajur.

The main objective of the college is to impart higher education to the tribal and backward students who were deprived of it when this college was not available. The college is newly established and at present it has 1508 pupils and almost of them belongs either to the scheduled tribes, scheduled castes and economically backward communities who are now able to persecute their higher education solely because of this college. It has proved to be a “blessing” (boon) to these tribal students.

- ▶ Hence one of the goals of our institution is to uplift the tribal and rural students and to empower them through the higher education.
- ▶ To bring the tribal and rural students to the main stream of the education.
- ▶ To make all round development of the tribal and rural students.
- ▶ To impart value based education through the socio- cultural activities.
- ▶ To develop personality through higher education.
- ▶ To motivate the tribal and rural students towards research and civil services.

Hence it becomes the mission statement of our institute right from its establishment and so it fore fronted as a vision to prepare them to assume better positions of political, economical, intellectual, artistic and environmental leadership in.

2. The Context:

Keeping the goal deep in mind our milestone late S.G. alias Bapusaheb Shende, late Savitribai Madan and late R.V. Patankar had first initiated the institution from the 3 residential hostels of boys and a hostel for girls. Now it is highly changed in to network of 2 middle schools, a junior college, a senior college, an Ashram School and 22 day care centers for kids of the pre-school age group. Students from tribal, hilly and remote places used to come to Rajur to take admission in College for higher education. Though the students left their villages and come to Rajur. The main problem is residence.

3. Practice:

The Government Hostel facility for Tribal students for Boys and Girls is available at Rajur. But the intake capacity of the Hostels is inadequate. As a result, most of the students can't get admitted in these hostels. In spite of having strong will for education, such students are depriving of higher education. The Institute Administration realized this fact. For the purpose, the members immediately determined to run a hostel in College campus for such students, having lodging and boarding facilities, in meager expenses. As a result, the students who were deprived of higher education could get their higher education and are brought into the main stream of the country.

4. Evidence :

The number of College attending girl-students has increased due to hostel available in the college campus. These girl-students were deprived of higher education. Most of these students have graduated and post-graduated in various disciplines and they are serving on higher posts in various fields, viz. academic, social, political, etc. As policy of priority/observation to girl students in admission process has resulted in considerable increase in the number of girl students.

- ▶ **Mr.Vasant Khatele - PI Civil Service**
- ▶ **Prof. Rohit Muthe – Assistance Professor and NCC Officer.**

Above listed students are taken for the representatives of the tribal students. Along with them there are many other students, who are not mentioned but our practice do enlightened the spark in the successors of these students to take higher education through our College. Hence the percentage of tribal students also got increased. We have got some fruitful, measurable success in accomplishing our goal the few above citation of our vision and mission that we dreamt and we achieved boosted our strength to go ahead with goal set.
