ABSTRACT: Bhor is an important and floristically rich Taluka of Pune district, Maharashtra state, located on the Western Ghats of India. We provide here a comprehensive checklist of angiosperms occurring in this region based on records of the Agharkar Research Institute Herbarium (AHMA). A total number of 663 species of Angiosperms belonging to 420 genera under 99 families are documented in this paper.

DOI: 10.15560/10.4.835

INTRODUCTION

India is a country of rich biological diversity having world's biodiversity hotspots like Western Ghats (Myers *et al.* 2005). Western Ghats is a chain of mountains running parallel to the West Coast of India, from South of the Tapti river to Kanyakumari, with a single gap (Palghat gap) in between. Western Ghats can be further divided into Northern, Central, and Southern regions. Northern Western Ghats comprises the region from Gujarat running through Maharashtra, Goa, and parts of Karnataka up to Kali River. Pune is an important district of the Maharashtra state whose western part is located on the Northern Western Ghats. The Pune region is highly urbanized with rapid conversion of agricultural lands into non-agricultural uses, deforestation, pollution, and damming. However, 3,648 km² of the total area of the district is protected as forest, including 69 sacred groves (Gadgil & Vartak 1980), reserve forests, two wildlife sanctuaries (Bhimashankar and Mayureshwar) and a recently proposed Tamhini Wildlife Sanctuary. The hilly portion of the Western side of the district is covered by forestlands and includes Talukas like Junnar, Ambegaon, Khed, Maval, Mulshi, Velhe and Bhor, while other talukas of the district have negligible forest. Despite of having such large area under forest, there have been no efforts to document the flora of the Pune district as whole. There are sporadic reports and checklists and floras from small regions of the district such as Khandala (Santapau 1953) and Maval-Ambavane (Venkatareddy 1969). Bhor is in the extreme southern region of the district (Figure 1) with remarkable diversity of flowering plants. Plants of the Bhor Taluka have never been studied and documented except for some sporadic records, such as Vartak (1959a, 1959b, 1959c) but a comprehensive checklist of the taluka is not available. This paper is the first attempt to fulfill this gap. In this report, we present a checklist of wild angiosperm of the Taluka Bhor from the Pune District.

MATERIALS AND METHODS

Study area

Bhor (18.0262° to 18.3591° N, 73.6240° to 74.0577° E, 591.43 a.s.l.) covers an area of 892 km² of which 122 km² is covered by forest. Bhor has many peaks like Rajgad, Raireshwar, and Vichitragad. The major rivers flowing in the Taluka are Nira, Velvandi, and Gunjavani flowing west to east and Shivaganga from north to south. The two major dams in the taluka are Bhatghar on river Velvandi and Nira-Devghar on Nira. The Taluka is surrounded by Khandala Taluka of Satara district and Purandhar Taluka of the Pune district towards East, Mahad of Raigad district towards West, Velhe, and Haveli of Pune district towards North and Wai Taluka of Satara district towards South. It has 195 villages and total population is 171,719 (Anonymous 2006).

Major part of Bhor Taluka is covered by Deccan trap basalt and thick alluvial soil spread along the bank of Nira and Velvandi. The region is also of historic importance, since it was the major connecting link between the Deccan plateau and the West coast. The soil is deep, with moderately well drained loamy soils. Average rainfall of the study area is 900 m (Anonymous 2006). Being highly fertile and with moderate rainfall, the majority of the area is under agriculture. Major crops are paddy, sorghum, and ragi. Minor crops are Groundnut, Pigeon Pea, and Sugarcane. Major forest types of this region are West Coast semi-evergreen forest, moist deciduous, and dry deciduous forests. The region has also many forest patches protected in the form of sacred groves and reserve forests.

Species records

The data were compiled based on specimens deposited in the Herbarium of Agharkar Research Institute, Pune (AHMA). AHMA hosts many specimens from Bhor collected since 1954, collected by the late Dr. V. D. Vartak, eminent plant taxonomist who worked on the flora of

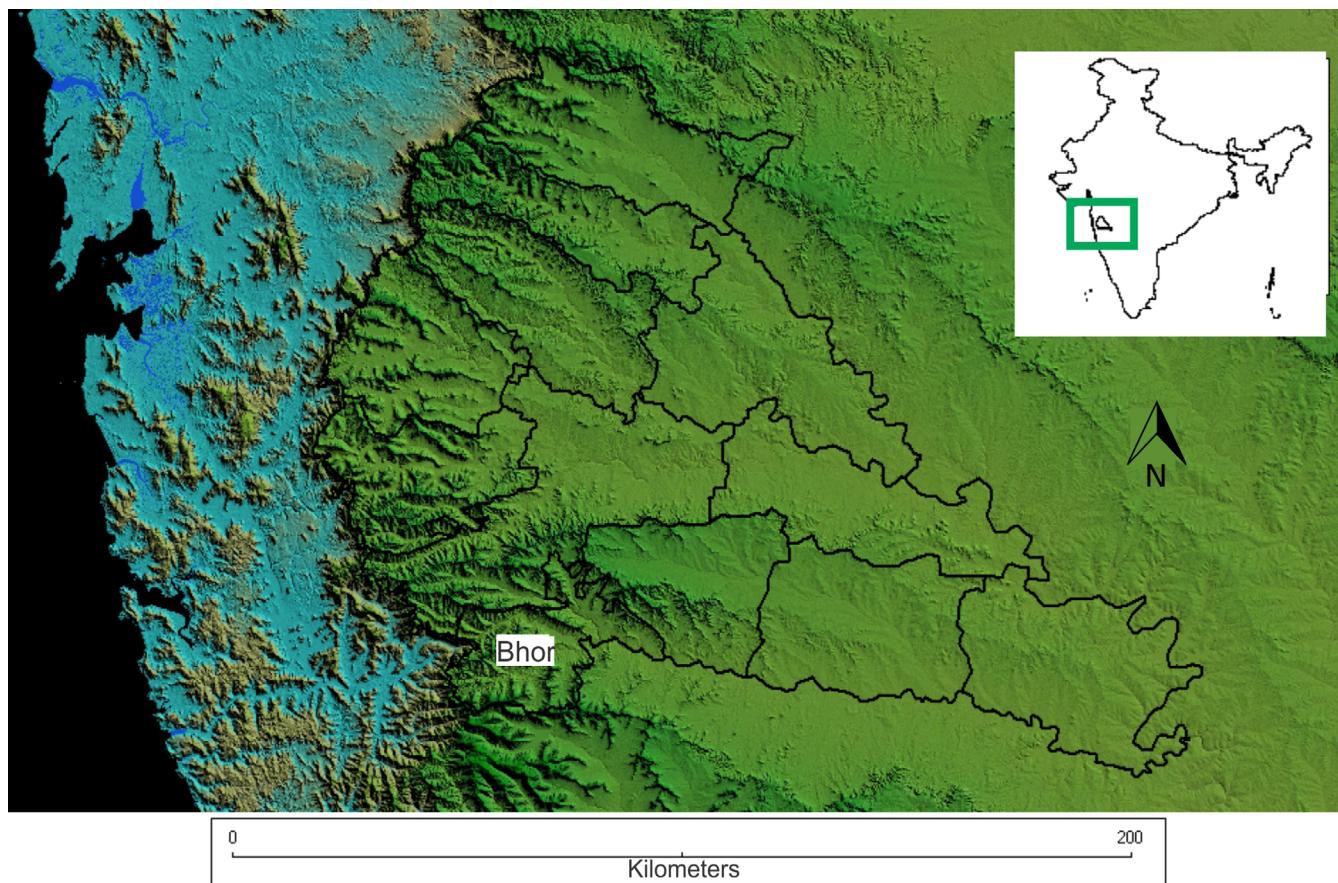

FIGURE 1. Location of the Bhor Taluka in the Pune District of Maharashtra, India.

Western Maharashtra. For compilation of checklist of Bhor Taluka literature studies on earlier works of Bhor Taluka were done (Vartak 1959a, 1959b, 1959c). All the specimens were carefully scrutinized for their identity and for the data recorded on the sheets. Species name, family, status of endemism, and accession number in AHMA are provided (Table 1). Botanical nomenclature follows the plant list (2013). Status of endemism follows the Flora of Maharashtra (Sharma *et al.* 1996; Singh and Karthikeyan 2000; Singh *et al.* 2001).

RESULTS AND DISCUSSION

We found a total of 663 species of Angiosperms, from 420 genera and 99 families (Table 1). In addition to these, the Taluka has also many cultivated species.

Amongst the dominant genera, *Cyperus* (18 species) is at the top of the list, followed by *Crotalaria* with 14 species and *Fimbristylis* (13 species). Out of 420 genera recorded, 1.65 % are represented by more than 5 species, whereas 45 % are represented by only a single species. Out of 663 species recorded, 418 are herbs, 66 shrubs, and 82 are tree. In addition, 35 are climbers, 34 undershrubs, 20 climbing shrubs, 1 Straggling Shrub, and 7 scandent shrubs (Figure 2). Leguminosae is the dominant family, with 87 species, followed by Poaceae with 62 species, and Cyperaceae and Compositae having 57 and 49 species, respectively. Out of 99 families, 10 are represented by more than 10 genera, whereas 44 are represented by single genus. Out of 100

families, 11 are represented by more than 10 species, whereas 36 families are represented by a single species.

Out of 663 species, 108 belonging to 35 families are endemic. These species are broadly endemic to the Western Ghats or Peninsular India and/or national endemics. Most endemics species (14) are Poaceae and Leguminosae, followed by Orchidaceae with 12 species. Out of the 108 endemic species recorded, about 50% (55 species) occur in deciduous habitat, followed by 18 species from semi-evergreen habitat. Thirteen species share semi-evergreen and deciduous habitat, while rock outcrops and grasslands have 12 and 10 endemic species, respectively (Figure 3). Another interesting record is of *Crotalaria clavata*, which is Critically Endangered due to habitat loss (Ansari, 2008) and occurs in Bhor.

<i>Arthraxon hispidus</i> (Thunb.) Makino	Terrestrial	Herb		14477
<i>Arthraxon meeboldii</i> Stapf	Terrestrial	Herb	Endemic	10933
<i>Arthraxon villosus</i> C. E. C. Fisch.	Terrestrial	Herb	Endemic	10973
<i>Arundinella metzii</i> Hochst. ex Miq.	Terrestrial	Herb	Endemic	11017
<i>Arundinella nepalensis</i> Trin.	Terrestrial	Herb		11019
<i>Arundinella pumila</i> (Hochst.) Steud.	Terrestrial	Herb		11020
<i>Arundinella setosa</i> Trin.	Terrestrial	Herb		11029
<i>Arundo donax</i> L.	Terrestrial	Herb		11047
<i>Capillipedium huegelii</i> (Hack.) A. Camus	Terrestrial	Herb	Endemic	11071
<i>Chionachne gigantea</i> (J. Koenig) Veldkamp	Terrestrial	Herb		11082
<i>Chrysopogon fulvus</i> (Spr.) Chiov.	Terrestrial	Herb		11096
<i>Coix lacryma-jobi</i> L.	Aquatic	Herb		11104
<i>Dactyloctenium aegyptium</i> (L.) Willd.	Terrestrial	Herb		11132
<i>Dichanthium caricosum</i> (L.) A. Camus	Terrestrial	Herb		11149
<i>Digitaria ciliaris</i> (Retz.) Koel.	Terrestrial	Herb		11159
<i>Dimeria gracilis</i> Nees ex Steud.	Terrestrial	Herb		11165
<i>Dinebra retroflexa</i> (Vahl) Panz.	Terrestrial	Herb		11171
<i>Echinochloa colona</i> (L.) Link	Terrestrial	Herb		11175
<i>Eragrostis ciliaris</i> (L.) R. Br.	Terrestrial	Herb		11205
<i>Eragrostis gangetica</i> (Roxb.) Steud.	Terrestrial	Herb		11210
<i>Eragrostis nigra</i> Nees. ex Steud.	Marshy	Herb		11211
<i>Eragrostis unioloides</i> (Retz.) Nees. ex Steud.	Terrestrial	Herb		11223
<i>Eulalia trispicata</i> (Schult.) Henr.	Terrestrial	Herb		11244
<i>Eulaliopsis binata</i> (Retz.) C. E. Hubb.	Terrestrial	Herb		11248
<i>Garnotia courtallensis</i> (Arn. & Nees.) Thw.	Terrestrial	Herb		11249
<i>Hackelochloa granularis</i> (L.) Kuntze	Terrestrial	Herb		24189
<i>Heteropogon ritchiei</i> (Hook. f.) Blatt. & McC.	Terrestrial	Herb	Endemic	11263
<i>Heteropogon triticeus</i> (R. Br.) Stapf ex Craib	Terrestrial	Herb		11264
<i>Imperata cylindrica</i> (L.) Raeusch.	Terrestrial	Herb		21519
<i>Isachne elegans</i> Dalz.	Terrestrial	Herb	Endemic	11269
<i>Isachne gracilis</i> C. E. Hubb.	Terrestrial	Herb	Endemic	11272
<i>Isachne lisboae</i> Hook. f.	Terrestrial	Herb		11273
<i>Isachne globosa</i> (Thunb.) Kuntze	Terrestrial	Herb		11277
<i>Ischaemum afrum</i> (J. F. Gmel.) Dandy	Terrestrial	Herb		11292
<i>Ischaemum commutatum</i> Hack.	Marshy	Herb		11282
<i>Ischaemum molle</i> Hook. f.	Terrestrial	Herb	Endemic	11290
<i>Ischaemum ritchiei</i> Stapf ex Bor	Terrestrial	Herb	Endemic	11293
<i>Ischaemum tumidum</i> Stapf ex Bor	Terrestrial	Herb	Endemic	11307
<i>Iseilema anthonemphoroides</i> Hack.	Terrestrial	Herb	Endemic	11323
<i>Iseilema laxum</i> Hack.	Terrestrial	Herb		11324
<i>Microchloa indica</i> (L. f.) P. Beauv.	Terrestrial	Herb		13536
<i>Ophiuros exaltatus</i> (L.) Kuntze	Terrestrial	Herb		11343

TABLE 1. *Continued.*

SPECIES/FAMILY	HABITAT	HABIT	ENDEMISM	AHMA NUMBER
<i>Oplismenus burmannii</i> (Retz.) P. Beauv.	Terrestrial	Herb		11345
<i>Oplismenus compositus</i> (L.) Beauv.	Terrestrial	Herb		11347
<i>Panicum maximum</i> Jacq.	Terrestrial	Herb		11358
<i>Panicum sumatrense</i> Roth	Terrestrial	Herb		11361
<i>Paspalum canarae</i> (Steud.) Veldk.	Terrestrial	Herb		11372
<i>Pseudanthistiria heteroclita</i> (Roxb.) Hook.f.	Terrestrial	Herb		11382
<i>Saccharum spontaneum</i> L.	Marshy	Herb		11390
<i>Sehima nervosum</i> (Rottl.) Stapf	Terrestrial	Herb		11394
<i>Setaria pumila</i> (Poir.) Roem. & Schult.	Terrestrial	Herb		11395
<i>Sorghum halepense</i> (L.) Pers.	Terrestrial	Herb		11402
<i>Sorghum purpureosericum</i> (A. Rich.) Schweinf. & Asch.	Terrestrial	Herb		11405
<i>Spodiopogon rhizophorus</i> (Steud.) Pilger	Terrestrial	Herb	Endemic	11408
<i>Sporobolus piliferus</i> (Trin.) Kunth	Terrestrial	Herb		11412
<i>Themeda quadrivalvis</i> (L.) Kuntze	Terrestrial	Herb		11416
<i>Trilobachne cookei</i> (Stapf) Schenck ex Henr.	Terrestrial	Herb	Endemic	11426
<i>Tripogon bromoides</i> Roth	Terrestrial	Herb		11438
Polygalaceae				
<i>Polygala arvensis</i> Willd.	Terrestrial	Herb		284
<i>Polygala persicariifolia</i> DC.	Terrestrial	Herb		323
Polygonaceae				
<i>Persicaria barbata</i> (L.) Hara	Terrestrial	Herb		6774
<i>Persicaria barbata</i> var. <i>gracilis</i> (Danser) Hara	Terrestrial	Herb		6772
<i>Persicaria glabra</i> (Willd.) Gomez	Marshy	Herb		21520
<i>Persicaria nepalensis</i> (Meissn.) H. Gross.	Terrestrial	Herb		6766
<i>Persicaria decipiens</i> (R.Br.) K.L.Wilson	Terrestrial	Herb		6775
<i>Polygonum plebeium</i> R. Br.	Terrestrial	Herb		6805
<i>Polygonum praetermissum</i> Hook.f.	Terrestrial	Undershrub		6784
<i>Rumex dentatus</i> L.	Terrestrial	Herb		6815
Potamogetonaceae				
<i>Potamogeton crispus</i> L.	Aquatic	Herb		15794
Primulaceae				
<i>Anagallis arvensis</i> L.	Terrestrial	Herb		4512
Ranunculaceae				
<i>Clematis gouriana</i> Roxb. ex DC.	Terrestrial	Climber		3
<i>Clematis hedysarifolia</i> DC.	Terrestrial	Climber		15
<i>Clematis hirsuta</i> Guill. & Perr.	Terrestrial	Climber		25
<i>Thalictrum dalzellii</i> Hook.	Terrestrial	Herb	Endemic	16659
Rhamnaceae				
<i>Scutia myrtina</i> (Burm.f.) Kurz	Terrestrial	Shrub		1082
<i>Ventilago maderaspatana</i> Gaertn.	Terrestrial	Climbing Shrub	Endemic	1086
Rubiaceae				
<i>Catunaregam spinosa</i> (Thunb.) Tirveng.	Terrestrial	Tree		3753
<i>Ceriscoides turgida</i> (Roxb.) Tirveng.	Terrestrial	Tree		3587
<i>Dentella repens</i> (L.) J. R. Forst. & G. Forst.	Terrestrial	Herb		3573
<i>Hymenodictyon obovatum</i> Wall.	Terrestrial	Tree	Endemic	3603
<i>Ixora brachiata</i> Roxb.	Terrestrial	Shrub	Endemic	3603
<i>Ixora nigricans</i> R. Br. ex Wight & Arn.	Terrestrial	Shrub		3617
<i>Mitragyna parvifolia</i> (Roxb.) Korth.	Terrestrial	Tree		3636
<i>Mussaenda glabrata</i> (Hook.f.) Hutch. ex Gamble	Terrestrial	Shrub	Endemic	3652
<i>Neanotis lancifolia</i> (Hook.f.) W. H. Lewis	Terrestrial	Herb	Endemic	3516
<i>Neanotis monenthalii</i> (Hook.f.) W. H. Lewis	Terrestrial	Herb	Endemic	3525
<i>Oldenlandia affinis</i> (Roem. & Schult.) DC.	Terrestrial	Herb		3663
<i>Oldenlandia corymbosa</i> L.	Terrestrial	Herb		3691
<i>Oldenlandia herbacea</i> (L.) Roxb.	Terrestrial	Herb		3695
<i>Oxyceros rugulosus</i> (Thw.) Tirveng.	Terrestrial	Tree		3757
<i>Pavetta crassicaulis</i> Bremek.	Terrestrial	Shrub		3723
<i>Psydrax umbellata</i> (Wight) Bridson	Terrestrial	Shrub		3562
<i>Rubia cordifolia</i> L.	Terrestrial	Climber		3767
<i>Spermacoce articulatis</i> L.f.	Terrestrial	Herb		3534
<i>Spermacoce pusilla</i> Wall.	Terrestrial	Herb		3546
<i>Spermadictyon suaveolens</i> Roxb.	Terrestrial	Shrub		3596
Rutaceae				
<i>Melicope lunu-ankenda</i> (Gaertn.) T. Hartley	Terrestrial	Tree		13273
<i>Toddalia asiatica</i> (L.) Lam.	Terrestrial	Shrub		961

TABLE 1. *Continued.*

SPECIES/FAMILY	HABITAT	HABIT	ENDEMISM	AHMA NUMBER
<i>Zanthoxylum rhetsa</i> (Roxb.) DC.	Terrestrial	Tree		963
Salicaceae				
<i>Casearia graveolens</i> Dalz.	Terrestrial	Tree		3252
<i>Casearia tomentosa</i> Roxb.	Terrestrial	Tree		17284
<i>Flacourтиa montana</i> Grah.	Terrestrial	Tree	Endemic	271
Santalaceae				
<i>Osyris lanceolata</i> Hochst. & Steud.	Terrestrial	Shrub		6981
<i>Santalum album</i> L.	Terrestrial	Tree		6994
<i>Viscum angulatum</i> Heyne ex DC.	Parasitic	Herb		6954
<i>Viscum articulatum</i> Burm. f.	Parasitic	Shrub		6965
Sapindaceae				
<i>Allophylus cobbe</i> (L.) Raeusch.	Terrestrial	Scendent Shrub		1283
<i>Cardiospermum halicacabum</i> L.	Terrestrial	Herb		1290
<i>Dimocarpus longan</i> Lour.	Terrestrial	Tree		1292
<i>Dodonaea viscosa</i> (L.) Jacq.	Terrestrial	Shrub		1293
<i>Schleichera oleosa</i> (Lour.) Oken	Terrestrial	Tree		17354
Sapotaceae				
<i>Madhuca longifolia</i> var. <i>latifolia</i> (Roxb.) Chev.	Terrestrial	Tree		4543
<i>Mimusops elengi</i> L.	Terrestrial	Tree		
Scrophulariaceae				
<i>Buddleja asiatica</i> Lour.	Terrestrial	Shrub		
<i>Sutera dissecta</i> (Del.) Walp.	Terrestrial	Herb		5675
Smilacaceae				
<i>Smilax zeylanica</i> L.	Terrestrial	Climber		8094
Solanaceae				
<i>Datura innoxia</i> Mill.	Terrestrial	Undershrub		5327
<i>Datura metel</i> L.	Terrestrial	Undershrub		5333
<i>Physalis angulata</i> L.	Terrestrial	Herb		5367
<i>Solanum americanum</i> Mill.	Terrestrial	Herb		5402
<i>Solanum anguivi</i> Lam.	Terrestrial	Shrub		21325
<i>Solanum erianthum</i> D. Don	Terrestrial	Tree		5416
<i>Solanum giganteum</i> Jacq.	Terrestrial	Shrub		5390
<i>Solanum virginianum</i> L.	Terrestrial	Herb		5421
Tamaricaceae				
<i>Tamarix ericoides</i> Rottler & Willd.	Terrestrial	Scendent Herb		355
Thymelaeaceae				
<i>Gnidia glauca</i> (Fresen.) Gilg.	Terrestrial	Shrub		6925
Urticaceae				
<i>Boehmeria macrophylla</i> Hornem.	Terrestrial	Undershrub		7366
<i>Debregeasia longifolia</i> (Burm. f.) Wedd.	Terrestrial	Shrub		7381
<i>Girardinia diversifolia</i> (Link) Friis	Terrestrial	Herb		7393
<i>Gonostegia pentandra</i> (Roxb.) Miq.	Terrestrial	Herb		7423
<i>Laportea interrupta</i> (L.) Chew	Terrestrial	Herb		7402
<i>Lecanthus peduncularis</i> (Wall. ex Royle) Wedd.	Terrestrial	Herb		7414
<i>Pilea microphylla</i> (L.) Liebm.	Terrestrial	Herb		7417
Verbenaceae				
<i>Phyla nodiflora</i> (L.) Greene	Terrestrial	Herb		6265
Vitaceae				
<i>Ampelocissus latifolia</i> (Roxb.) Planch.	Terrestrial	Climbing Shrub		1142
<i>Cissus elongata</i> Roxb.	Terrestrial	Climber		1176
<i>Cissus javana</i> DC.	Terrestrial	Climber		1171
<i>Cissus repens</i> Lam.	Terrestrial	Climber		1190
<i>Cyphostemma trilobata</i> (Lam.) Almeida	Terrestrial	Climber		1201
<i>Cissus woodrowii</i> (Stapf ex Cooke) Sant.	Terrestrial	Shrub	Endemic	1207
<i>Cyphostemma auriculatum</i> (Roxb.) P. Singh & B. V. Shetty	Terrestrial	Climbing Shrub		1154
<i>Leea indica</i> (Burm. f.) Merr.	Terrestrial	Shrub		1219
Zingiberaceae				
<i>Curcuma pseudomontana</i> Grah.	Terrestrial	Herb	Endemic	7778

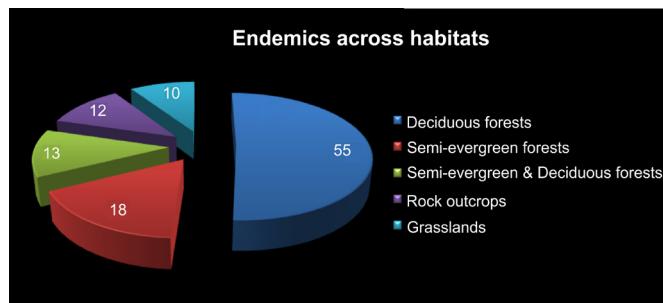

FIGURE 3. Distribution of endemics across different habitats.
